MEMORANDUM FOR: DEPUTY DIRECTOR (SUPPORT)

SUBJECT

Request for Amendment of Agreement

25X1A

25X1A

REFERENCE : (a) Memo to DD(S) from C/TSS dated 8 March 1956

1. It is requested that approval be granted for an amendment, as outlined below, of the previously approved agreement (reference

25X1A

2. [redacted] as approved in reference (a), called for simply the modification of one of the units previously developed under [redacted] so as to permit transceiver operation, i.e., two-way communications. With the knowledge gained during the latter stages of development of the [redacted] equipment and during subsequent field tests, it now appears highly desirable to redesign the basic equipment so as to increase range, reliability and ease of operation. The changes to be incorporated were discussed by the C/TSS/APD on his visit [redacted] in May 1956 and in subsequent correspondence with the contractor.

25X1A

3. It is estimated that to include the changes will require supplementing the present \$9,000.00 fund in [redacted] by an additional amount not to exceed \$9,000.00, making a total not to exceed \$18,000.00. The new delivery schedule should be eight months after the signing of the amendment. Under the original agreement, the contractor was paid \$3,000.00 upon signing the agreement and the remainder was to be paid upon completion of the project. This should be changed so that an additional \$3,000.00 is paid upon signing the amendment and the remainder of the original and supplementary funds to be paid upon completion of the revised project.

4. Funds to cover the amendment are available within the existing TSS Research and Development budget. The total cost for this amendment should not exceed \$9,000.00 and should be charged to Allotment 7-2502-10.
